The wide selection of hikes and diversity of landscapes offered on-site were greatly appreciated. The pleasure of sharing these hikes with our dog was pure happiness. Cleanliness is essential within a good experience and it was the case.

**FORESTA
LUMINA**

We were amazed by our experience at Foresta Lumina. We had an exclusive magical experience, walking the trails of *Parc de la Gorge de Coaticook*. The lights, projections, music and sound effects transported us to a world of fairy tales appreciated by all, both adults and children within our group. Each exhibition site was different and managed to surprise and delight us! We highly recommend this activity.
